Microsoft Office 365
+ Nitro Productivity Suite

Remove barriers to user productivity

The Nitro Productivity Suite is the perfect add-on for your Microsoft Office 365 customers. Delivering advanced PDF editing and unlimited eSigning, the Nitro Productivity Suite addresses critical use cases not currently supported by Office 365 applications—such as combining documents, sending documents for eSignature, and converting PDFs to other file formats. Help your customers overcome these productivity gaps by deploying Nitro alongside Office 365.
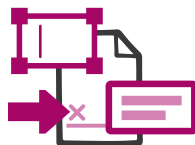

Why Nitro?

Only one in 10 knowledge workers has PDF productivity or eSigning in their office productivity toolkit, creating barriers and bottlenecks in document-driven processes. Nitro's functionality and price point enable your customers to standardize on PDF and eSigning, just as they have with Office 365.

With Nitro, your customers can:

Afford to give every user the tools they need to edit, sign, and share PDFs without printing.

Seamlessly integrate advanced PDF editing and eSigning into Office 365 workflows.
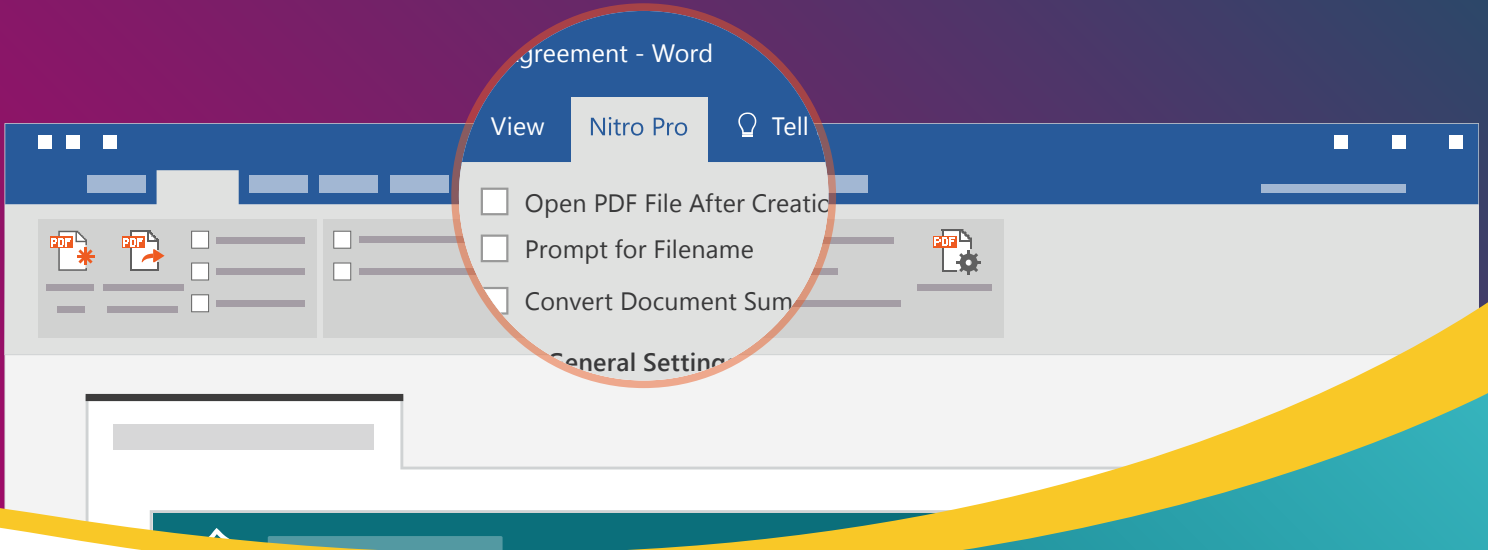

Invest in a low-maintenance, future-proof solution that supports your customers' digital transformation initiatives.

Enjoy Nitro's flexible per user/per month licensing model and customizable deployment options.

General Setting

Fast adoption:

Nitro's user interface mirrors the familiar Microsoft ribbon, so it's intuitive—even for first-time users.
Unlimited eSignature requests:

With no usage requirements or limits, users can expedite signature collection on any type of document. Our new Word plugin also enables users to send an eSignature request directly from Word, with just one click.

Strategic storage integrations:

Nitro connects to SharePoint, OneDrive, and other document storage platforms for quick, easy saving and retrieval of files.

Streamlined workflows:

Users can install Nitro's desktop plugins to create PDF versions of the Word, Excel, or PowerPoint files they're working on, without leaving the Office application. Nitro also converts PDFs back into Word, Excel, and PowerPoint formats with incredible accuracy.

Partnering with Nitro

Nitro's Partner Program offers high margin levels to our partners, enabling you to significantly increase the profitability of each of your Office 365 deals by simply adding on Nitro.

Benefits of Nitro's Partner Program:

- Flexible subscription model: allowing you to bill your customers monthly.

- Double-digit margins available!

- Market-leading deal registration program.

Whether you're approaching a Windows 10 migration or an Office 365 implementation, speak with the Nitro team about how this easy add-on will help you make more money while delivering more value—and productivity—to your customer.
