

Vembu BDR Suite

Vembu BDR Suite, ensure the business continuity and disaster recovery of small to large scale IT infrastructures having virtual machines, physical machines, cloud workloads, and SaaS applications at an affordable price. The products under the suite can be deployed flexibly in any location like on-premise, offsite, and the public cloud. The centralized monitoring and management user interface also make it very easy to monitor and manage large deployments with minimal effort.

Customer Quotes

"We have used Vembu product for years, starting with its hybrid-cloud backup solutions and like it for its ease to deploy, ease to manage, ease to invoicing, and broad set of scalable offerings from simple file backup up to BCP product lines."

-Lee Wong, Manager of Information Technology at The Mackie Group

"Vembu have been a valued partner since starting to use the product around 5 years ago. We've consistently seen improvements and upgrades as needed. When we've had problems they've been there to help, no hard sales and no fuss."

-Alan Morris, Head of Technical Services, Cyngor Sir CEREDIGION County Council

Vembu Portal

It is an all-in-one portal to register & manage Vembu Products & Services with the options like:
